INTRODUCTION

surfaces for every room, pressed and fired in sassuolo

Tessera has made tiles on the Via Emilia since 1968. We still press, glaze and fire every series in our own kilns, and we still lay every new surface on the factory floor for a month before it goes into this book.

Each series is shown the same way: the surface in every colourway, the formats drawn to scale, and a table with the box contents and prices you need to order. Formats, thicknesses and laying patterns for the whole range are gathered on the next two pages.

01 batches

Every box carries a shade and calibre code. Order a floor in one delivery so it comes from one batch; we hold matching stock for 12 months.

03 minimums

No minimum on stocked colours. Pallets are made up of full boxes; a full pallet ships at pallet rates, part pallets by carrier.

05 laying

Use a 2 mm joint for rectified porcelain, 3–5 mm for zellige and cotto. Cotto is sealed after laying; zellige is grouted flush and wiped.

02 samples

Full-size samples of any tile ship within three days, free against a trade account. Zellige and cotto are sent as a set of four to show the variation.

04 delivery

Stock tiles leave Sassuolo within 5 working days. EU delivery in 3–7 days by pallet; kerbside unloading, tail lift on request.

06 payment

Trade accounts 30 days net. Returns of full, unopened boxes within 60 days, less a 15% restocking charge. Prices valid to 31 December 2027.
